Sailing with TARA

The TARA schooner will be welcomed by the boats of the LEGA NAVALE as it enters the Bay of Naples. Don't miss the event on **May 4th**! Take pictures and post them! #TaraOceanFondation #EMBLtrec #szn #progettotrec #eventi

TREC in the City

Three itinerant activities all around Naples and at Città della Scienza

1. **Curiosity Microscope**

Exhibition stand where you can observe plankton with a portable microscope

2. **Run, Scientist, Run!**

A game similar to "Game of goose", but life-sized, where you experience the challenges and successes of a scientific expedition

3. **Ocean, this unknown**

Exhibition, conceived as a journey, to convey a key message: *the Ocean is the central ecosystem of our Planet*

Where and when:

- Piazza Municipio, May 4th, 15:00 - 19:00
- Città della Scienza, May 5th, 09:00 - 17:00
- Toledo, May 7th, 16:00 - 19:00
- Rotonda Diaz, May 8th, 16:00 - 19:00
- Castel Dell'Ovo, May 9th, 16:00 - 19:00
- Rotonda Diaz, May 10th, 16:00 - 19:00
- Piazza Municipio, May 11st, 15:00 - 19:00
- Piazza Plebiscito, May 12nd, 15:00 - 19:00

Nexus Island

An interactive, game-based workshop focusing on the health of the Planet. Just like a scientist you will take part in an expedition to discover, collect and study the organisms of the Island...will you be able to save the Island?

Where and when:

- Città della Scienza (Via Coroglio, 57/104)
- May 5th, 09:00-17:00

**NATIONAL
BIODIVERSITY
FUTURE CENTER**

EMBL

Guided tours of the Advanced Mobile Lab

Guided tour offering the participants the opportunity to explore directly the Advanced Mobile Lab.

MANDATORY RESERVATION, click [HERE](#)

Where and when:

- Stazione Zoologica Anton Dohrn (Villa Comunale)
- May 11th, 15:00 – 20:00

TARA at Molo San Vincenzo

Three activities will take place near the TARA schooner:

MANDATORY RESERVATION, click [HERE](#)

1. **Guided Tours** to TARA schooner.
2. **Observing the invisible inhabitants of the Ocean:**
practical workshop to discover plankton biodiversity, observing local seawater samples with the *Curiosity* microscope.
3. **Plastic at sea, solutions are on land:**
friendly workshop to trace the source of plastic pollution and associated chemicals pollutants, in order to find possible solutions.

Where and when:

- Molo San Vincenzo (Marina Militare).
- May 11st, 10:00 - 13:00 and 15:00 - 18:00

Science on Tour

An informal chat with some members of the Tara Expedition and other scientists

Where and when:

- The Spark Creative Hub (Piazza Bovio, 33)
- May 10th, 18:00

PlanktoQuest

Observe and manipulate micro-organisms using virtual reality headsets

MANDATORY RESERVATION, click [HERE](#)

Where and when:

- Stazione Zoologica Anton Dohrn (Villa Comunale)
- May 11st, 9:00-17:00 and May 12nd, 9:00-12:30

**NATIONAL
BIODIVERSITY
FUTURE CENTER**
