

Curriculum vitae

Sergio Balzano

Born in Nocera Inferiore (SA, Italy) on 09/04/1980

Tel.: +39 081 5833325

Fax: +39 081 7641355

e-mail: sergio.balzano@szn.it

Skype: sergio_balzano

Linkedin: <https://www.linkedin.com/in/sergio-balzano-a96b7516/>

Researchgate: https://www.researchgate.net/profile/Sergio_Balzano

Current Position: Researcher

Current Affiliation:

Department of marine biotechnology, SZN

Education/Training/Experience

Institute and Location	Degree / Function	Year	Field of Study
Università degli studi Parthenope, Napoli	Bachelor and Master degree (laurea vecchio ordinamento)	1998-2004	Marine environmental sciences (scienze ambientali, indirizzo marino)
Stazione zoologica Anton Dohrn, Napoli (SZN)	Master thesis (tesi di laurea)	2003-2004	Marine Botany, taxonomy of diatoms
National Oceanography Centre, University of Southampton (United Kingdom).	Ph.D.	2005-2009	Marine microbial biogeochemistry
Station Biologique de Roscoff, CNRS, France	Postdoctoral researcher	2009-2011	Molecular ecology of phytoplankton

Station Biologique de Roscoff, CNRS, France	Postdoctoral researcher	2011-2012	Eukaryotic symbiosis in Radiolaria
School of Biological Sciences, Flinders University, Adelaide (Australia)	Research associate	2012-2014	(1) Microbial ecology, (2) biofouling of reverse osmosis membranes.
Department of marine microbiology and biogeochemistry	Postdoctoral researcher	2014-2018	Marine biological sources and biosynthetic pathways of microalgal lipids
Stazione Zoologica Anton Dohrn (Naples, Italy)	Postdoctoral researcher	2018-2019	Adaptation of benthic microalgae to heavy metal pollution
Department of marine biotechnology, Stazione Zoologica Anton Dohrn	Permanent researcher	2019-present	Metabolic pathways and biotech applications of marine microalgae

Appointments and awards

-Guest scientist at Netherland Institute for Sea Research (NIOZ)

Congress attendance

2007: European Geoscience Union, Vienna. Poster presentation
 2009: International Society for Microbial Ecology (ISME). Cairns, Australia, oral presentation
 2010: American Society for Limnology and Oceanography, San Juan (Porto Rico) oral presentation
 2012 : Ecole Thématique Expert Génomique Environnementale. Aussois, France (poster presentation).
 2015: Gordon Research Conference: environmental microbiology. Boston (US), poster presentation
 2016: Gordon Research Conference: marine microbiome. Girona (Spain), poster presentation
 2016: Marine microbiome discovery and innovation. Berlin, Germany, oral presentation.
 2017: International conference for Algal Biomass, Biofuel, and Bioproducts. Miami, US, poster
 2018: International conference for Algal Biomass, Biofuel, and Bioproducts. Seattle, US. Oral presentation
 2019: Associazione Italiana per lo Studio delle Microalghe (AISAM). Poster presentations and participation as committee member

Fieldwork

- Oceanographic cruise on the North Atlantic (Porcupine Abyssal Plain, June 2007)
- Seasonal sampling of water on the Coorong Lagoon (South Australia 2013-2014)
- Oceanography cruise on the Baltic Sea (May 2016)
- Sampling of coastal seawater and sediment in the Gulf of Naples (June 2020).

Courses

Workshops

- September 2010, Bigelow, USA: workshop on single cell genomics
- April 2012, Grenoble, France: workshop on environmental genomics
- September 2013, Adelaide, Australia: workshop on bioinformatics
- RNA-seq data analyses workshop (Leiden ,September 2016)

Students' Supervision

- April to June 2011. Melanie Chanoine, internship: Intraspecific variability of the dominant Arctic algae by ITS sequencing
- October 2012 to January 2013: Camille Moreau, internship: chemical and biological changes during seawater pre-treatment for reverse osmosis.
- March to August 2013: Xavier Denis, internship: production of Transparent Exopolymer Particles from phytoplankton.
- March to July 2013: Hugo Compas, internship: evolution of chemical and biological parameters in Penneshaw desalination plant.
- April to July 2013: Elsa Abs, internship: microbial communities in the Coorong Lagoon.
- February to August 2013: Tamar Jamieson, Honours: Bacterial colonisation and Transparent Exopolymer Particles production from reverse osmosis membrane.
- January to June 2014: Louis Thirot, Honours. Development of molecular fingerprinting techniques for screening eukaryotic diversity
- May to September 2019: Martina Blasio, scholarship. Microbial community composition in heavy metal contaminated sediments.
- October 2019 to present: Martina Blasio, PhD student: Aliphatic polymers from *Nannochloropsis* spp., biosynthesis and biotechnological application

Participation in projects

- Bio-transformation of trace elements in aquatic systems (BIOTRACS). Participation as PhD student (2005-2008). Investigating the role of microbial population in the cycling of iron and manganese in marine aggregates.
<https://cordis.europa.eu/project/id/514262>.
- MALINA. How do changes in ice cover, permafrost, and UV radiation impact biodiversity and biogeochemical fluxes in the Arctic Ocean. Participation as postdoctoral researcher (2009-2012): culture-dependent and culture-independent techniques for the appraisal of photosynthetic nano and picoeukaryotes in the Arctic.
<http://www.obs-vlfr.fr/malina/>
- MicroB3 project: Marine Biodiversity, bioinformatics, biotechnology. Participation as postdoctoral researcher (2012): transcriptome analyses to evaluate host-symbiont relationships in Radiolaria. <https://www.microb3.eu>
- National Centre of Excellence in Desalination Australia (NCEDA). Participation as postdoctoral researcher (2012-2014): assessing the biofouling role of microbes in the desalination system; from the intake pipe to the reverse osmosis membranes.
- Long chain diols as novel organic proxies for paleoclimate reconstructions. Participation as postdoctoral researcher (2014-2018): biological sources and biosynthetic pathways of long chain alkyl diols in seawater.
<https://cordis.europa.eu/project/id/339206/results/it>

Project writing experience

- 2013: Microbial diversity in South Australia hypersaline environments (2013). Grant not awarded
- 2013: National Centre of Excellence in Desalination Australia (NCEDA). Project administrator dynamic of biofouling formation in RO membrane; Characterisation of the main precursors, microbial succession, inhibition, and sustainability. Grant not awarded
- 2019. Application for a Norma J Lang Early Career Fellowship. Grant not awarded
- 2019: sviluppo di sistemi innovativi integrati per lo studio della diversità microbica ed il suo potenziale biotecnologico in ecosistemi marini ad elevato impatto antropico. Participant. Awaiting evaluation
- 2020: Bando progetti di ricerca Centro Ricerche ed Infrastrutture marine avanzate in Calabria (CRIMAC). Microalgae based products for aquaculture feed (MICROPRO). Participation as principal investigator. Waiting evaluation
- 2020: Bando progetti di ricerca Centro Ricerche ed Infrastrutture marine avanzate in Calabria (CRIMAC). MICROalgae-heavy METal Interaction and potential for phycoremediation (MICROMET). Participation as research partner. Waiting evaluation
- 2020: inNovatIve strateGy for High-performing CO₂ capTure and biocompound production. Participation as research partner. Waiting evaluation
- 2021: Search for plastic-degrading enzymes in plastisphere microbial communities from the Gulf of Naples (PLAZY)

Publications

Author of 30 peer-reviewed publications, and first author in 15 of them. H-index 13, total citations 839 (as on November 2020)

2002, Internship report: étude de l'accumulation des sédiments sur les berges des lacs Nguène et Kamalété, Au Gabon. Université de Perpignan. 20 pages. Supervisor Prof. P. Giresse

2002, Internship report: étude de la distribution spatio temporelle du phytoplankton. Université de la Méditerranée, Marseille. 30 pages. Supervisor Prof. B Queguiner.

2004, Master thesis: morfologia, filogenesi e biogeografia del genere *Skeletonema* (Bacillariophyta). Tesi di laurea, Stazione Zoologica Anthon dohrn. 150 pages. Supervisors: Wiebe HCF Kooistra and Diana Sarno.

2009, PhD thesis: the role of microbial populations in the cycling of elements from marine aggregates. University of Southampton. 240 pages. Supervisors: Peter J Statham, Richard D Pancost, and Jon R Lloyd.

List of peer-reviewed publications

- Sarno D, Kooistra WHCF, **Balzano S**, Hargraves PE and Zingone A (2007). Diversity in the genus *Skeletonema* (Bacillariophyceae): III. Phylogenetic position and morphological variability of *Skeletonema costatum* and *Skeletonema grevillei*, with the description of *Skeletonema ardens* sp. nov. *The Journal of Phycology* 43:156-170.
- Kooistra WHCF, Sarno D, **Balzano S**, Gu H, Andersen AR and Zingone A (2008). Global Diversity and Biogeography of *Skeletonema* species. *Protist*. 159: 177-193
