

# Giulio Franzitta

## Curriculum Vitae

Date of Birth: **17/02/1980**

Nationality: Italy

Email: [giulio.franzitta@szn.it](mailto:giulio.franzitta@szn.it)

Skype contact: giuliofranz

Phone contact: (+39)3485968407 (Italy)

### Research themes

Marine conservation; Experimental ecology; Ecological Restoration; Anthropogenic impact on coastal habitats; Marine invasive species

### Academic qualifications

2023 – **Master** in Sustainability Manager for Ecological Transition at University of Naples Parthenope (Italy)

2013 – **PhD** in Environmental Sciences (with Doctor Europaeus mention).

Institution: University of Bologna (Italy)<sup>1</sup>.

Mark: “Very Good” distinction.

Thesis: “Effects of artificial defences and flooding on coastal habitats and assemblages”.

Supervisors: Prof. Marco Abbiati and Prof. Laura Aioldi.

2005 – **M.Sc.** in Natural Sciences.

Institution: University of Palermo (Italy)<sup>2</sup>.

Mark: 110/110 *cum laude*.

Thesis: “Evaluation of the impact of a small marina on benthic assemblages: the marina of Isola delle Femmine (North Sicily)”.

Supervisors: Prof. Renato Chemello and Prof. Marco Milazzo.

### Languages

- Italian: mother tongue
- English: written and spoken (upper intermediate)
- Spanish: written and spoken (basic)

### Computer skills

- Windows 3.1/95/98/2000/NT/XP (Word, Excel, Power Point, Access) operating system.
- Statistical software: Primer+ Permanova

### Work Experience

#### **Current position:**

Research Technician at Stazione Zoologica Anton Dohrn (Italy)

*main duties:* scientific diver, captain of research vessels, responsible for marine biology laboratories at Sicily Branch

From feb 2020 to nov 2023 assigned to Research Infrastructure marine biological resources dept. at Naples headquarters

From nov 2023 up to date assigned to Sicily Marine Centre – Palermo branch

#### **Post-doc experience:**

**2019** (until Jan 2020) – Postdoc at Stazione Zoologica Anton Dohrn (Napoli, Italy) for the Project Abbaco "Pilot experiments for the environmental restoration and balneability of the Bagnoli-Coroglio coastal area"

**2018** (3 mo) – Research Support Officer (RSO III level) within the framework of the projects HARMONY and BYTHOS (Interreg V-A Italia-Malta) at the Department of Geosciences, Faculty of Science, University of Malta.

**2018** – (Until april 2019) Collaborator as external expert for the Capo Carbonara and Egadi Islands MPAs in the Project “MedSeaLitter” within the framework of Interreg MED.

**2017** – (5 months) Fellow in the project “Environmental accountability in the Pelagie Marine Protected Area” Supervised by Prof. Renato Chemello.

**Duties:** Visual census of fish assemblages, with estimates of biomass per unit area in four distinct habitats; data processing; support to the management of the Project.

**2017** – (2 months) Fellow in the project “Marine Strategy” Supervised by Prof. Marco Milazzo.

**Duties:** Visual census of fish assemblages, with estimates of biomass per unit area at different levels of protection; data processing; support to the management of the Project.

**2016** – (2 months) Fellow in the project “Environmental accountability in the Egadi Marine Protected Area”. University of Palermo

**Duties:** Visual census of fish assemblages; data processing; support to the management of the Project.

**2015-16** – (6 months) Fellow in the project “Monitoring of direct and indirect effects of bathing platforms on the vermetid reefs in the Capo Gallo - Isola delle Femmine MPA” at UniPa

**Duties:** Monitoring by *in situ* non destructive techniques; data analysis; writing final report.

**2014-15** – (1 year) Post-doc in the project “Evaluation of the benthic biodiversity associated to the vermetid reefs in the Mediterranean sea” in the Framework of the PRIN (Italian Research project of National Interest) at UniPa.

**Duties:** Monitoring and experiment in the vermetid reef (North Sicily)

**2013-14** – (1 year) Fellow in the project “TETIDE - Advanced sustainable technologies aimed at the remediation and the restoration of degraded coastal marine areas” part of the PON01-03112.

**Duties:** Restoration of *Posidonia oceanica* meadow using innovative transplant method.

### During the PhD:

**2011** – (9 months) Winner of a grant for a research project (15k €) entitled “Analysis of the coastal urbanization effect on the distribution enlargement of thermophilic native and not native species along the Sicilian coasts” in the framework of APQ Giovani project granted by Sicilian Regional Government.

**Duties:** Design and implementation of the project; conduction of *visual census* of fish fauna by SCUBA and snorkelling; selection and coordination of the staff; data analysis; writing the final report.

**2010-11** – (11 months) Visiting Researcher and Research assistant at University of Plymouth<sup>3</sup> (UK)

**Duties:** Lead all the phases of a field experiment in salt marsh environment: experimental design, coordination of collaborators, samples process, data analysis, conference presentations and publication. This work, part of my PhD thesis, was in the framework of the THESEUS project (Innovative technologies for safer European coasts in a changing climate).

### Postgraduate experience:

**2006-09** – (3 years) Fellow at ISPRA (Italian National Institute for Environmental Protection and Research) in the projects ASPIM 2 (identification and distribution of non-indigenous species in the Italian seas) and ENI-BIOPLAT (methodological approach for the characterization of biodiversity and monitoring of ecosystem role of offshore platforms).

**Duties:** Literature review, field and lab work on invasive species, including sampling, sorting and identification of rocky-shore benthic species in the port of Milazzo and Trieste (IT). Conducting SCUBA *visual census* of fish species associated at gas offshore platforms in the Jonio and the Adriatic seas.

**2007** – (6 months) Visiting Researcher at Australian Maritime College (Roseburg, Victoria, AU) thanks to a postgraduate exchange fellowship granted by Unipa. Supervised by Prof. Chad L Hewitt and Prof. Marnie Campbell.

**Duties:** Carrying out monitoring and experiments regarding the ecology and distribution of the invasive algae *Undaria pinnatifida* in the Port Phillip Bay (AU).

## Publications
